**Subject:** Fwd: FRRB for EPA Gas Sensor Mission

Hi Brian,

Good news, our FRRB has been scheduled for this Wednesday and everyone now anticipates successful deployment for 25 SEPT- 7 OCT. I shall send out one more email with some additional questions the board had about the plume size and distribution, but I am confident we will be leaving on the 25th morning and will have time to test our aircraft with the mock payloads next week before deployment.

Once again, I apologize the board held us up like this and we are taking steps to ensure all future reviews are completed ahead of schedule to prevent a repeat of any last-minute additional safety reviews on our end. Now that the AFSRB is complete and the FRR is around the corner, future missions will be much simpler requiring only a 'delta' review with the board.

Thanks again and we look forward to being out there soon.

Best,

Ved Chirayath, Ph.D.
